

Northern Coatings and Chemical Co. Formulator

Position Available Beginning April 6, 2020

Job Summary

Paint and Coatings Formulator at Northern Coatings and Chemical Co.

Company Description

Northern Coatings and Chemical Co. is a privately held paint and coatings manufacturer that has been in business since 1973. Northern's products are strictly industrial for OEM use. Northern's main business areas are coil coatings, UV cure coatings, automotive coatings, high temperature coatings, wood and plastic coatings, as well as coatings for glass decorating.

Job Location

Northern Coatings and Chemical Co. is located in Menominee, MI, about 50 miles north of Green Bay WI on the west coast of Lake Michigan. The combined population of the Menominee, MI and adjacent Marinette, WI area is roughly 19000 people. Great small town atmosphere with lots of opportunities for outdoor recreation in close proximity.

Work Activities

- Design and develop new paints and coatings
- Develop quality protocol for new products
- Cost savings and testing new raw materials
- Occasional travel to customer facilities to provide technical service
- Production support of new and existing products

Job Qualification

- Bachelor of Science or equivalent degree in Chemistry
- 3 years of work experience or equivalent training in paint and coating formulation Preferred
- English proficient
- Background in high temperature coatings, coil coatings, and preferred
- Experience with ISO 9001 preferred
- Experience with Product Vision or Batchmaster or similar ERP software preferred.

Other Skills required

Candidate should have good analytical skills and be comfortable doing hands on formulation in a laboratory environment.

Compensation and Hours

Pay is salary and determined based on the qualifications of the applicant. Typical hours are from 8:00 AM to 5:00 PM Monday through Friday. Health insurance, paid vacation time, and great retirement benefits are provided.
